

information and communication technologies for development - information and communication technologies for development ict4d refers to the application of information and communication technologies ict toward social economic and political development with a particular emphasis on helping poor and marginalized people and communities it aims to help in international development by bridging the digital divide and providing equitable access to, **company a z army technology** - c c e niehoff co heavy duty brushless alternators and electric power management systems c t s technology communication jammers and under vehicle search systems cae aviation airborne intelligence surveillance and reconnaissance services calytrix technologies defence training and simulation systems camcode durable uid labels for mil std 130 camel manufacturing company military, **automated and connected vehicles** - read more nhtsa automated vehicles for safety connected vehicles connected vehicles are vehicles that use any of a number of different communication technologies to communicate with the driver other cars on the road vehicle to vehicle v2v roadside infrastructure vehicle to infrastructure v2i and the cloud v2c, **icterra information and communication technologies** - locations london suite lp37826 20 22 wenlock road n1 7gu london united kingdom tel 44 203 695 88 89 legal disclosure munich parkstadt schwabing 1st floor marcel breuer str 15 munich 80807 germany, **vtc2019 spring in kuala lumpur call for workshop papers** - abstract the 5th generation 5g cellular communication systems are going to be launched in 2019 in the 5g standard key enabling technologies such as massive mimo beamforming or a new radio access technology are specified and the research and development of those key technologies have been carried out in many research entities, **ferranti technologies electronic manufacturing force** - platform protection systems ferranti technologies provides modern defence forces with cutting edge modular platform protection solutions and systems for a range of airborne platform types and sizes, **convex consortium hosts europe s first live c v2x direct** - audi ag ducati ericsson nasdaq eric swarco the technical university of kaiserslautern and qualcomm cdma technologies gmbh a subsidiary of qualcomm incorporated nasdaq qcom today announced europe s first live demonstration for c v2x direct communication interoperability between a motorcycle vehicles and roadside infrastructure, **autonomous vehicles self driving vehicles enacted** - many people consider autonomous vehicles to be a significant part of the future of the automotive industry as the technology for autonomous vehicles continues to develop state and municipal governments may need to address the potential impacts of these vehicles on the road here is a review of enacted legislation, **hybrid and electric vehicle technologies ia hev** - ia hev task 19 considers ev sustainability the task focus is on the life cycle assessment lca of electric vehicles evs the objective is to learn how electric drivetrain vehicles should be designed for optimal recyclability minimal resource consumption and proper recycling or disposal, **cellular v2x qualcomm** - when compared with 802 11p based technologies direct c v2x provides increased communication range 2x better non line of sight nlos performance enhanced reliability and cost efficiency without relying on cellular network assistance or coverage for enhanced safety services, **mst global mine site technologies mine site technologies** - optimise output minimise cost reduce risk mst global mine site technologies mst provides fit for purpose hardware combined with smart software solutions to support productivity and safety processes in underground mines and tunnels as well as surface mining, **remotely operated vehicles rovs oceaneering** - contributing to the cutting edge development of theme park technologies including dark ride vehicles and show systems and a range of custom solutions, **bluefin robotics unmanned underwater vehicles general** - our family of bluefin robotics products consists of autonomous unmanned underwater vehicles uuvs and related technologies for defense commercial and scientific customers worldwide, **automated vehicles for safety nhtsa** - driver assistance technologies in today s motor vehicles are already helping to save lives and prevent injuries a number of today s new motor vehicles have technology that helps drivers avoid drifting into adjacent lanes or making unsafe lane changes or that warns drivers of other vehicles behind them when they are backing up or that brakes automatically if a vehicle ahead of them stops, **garrett turbo technology electric hybrid connected** - let s connect sign up to receive exclusive communications about offerings events and news surveys special offers and related topics via telephone email and other forms of electronic communication e g communications through social media platforms collectively marketing communications, **concurrent technologies corporation engineering energy** - who we are concurrent technologies corporation ctc is an independent nonprofit applied scientific research and development professional services organization together with our affiliates enterprise ventures corporation and ctc foundation we leverage research development test and evaluation work to provide transformative full lifecycle solutions, **information and communication technologies results profile** - technological progress is a driving force behind economic growth the world

bank helps developing countries use information and communications technologies ict to improve access to affordable connectivity including broadband transform delivery of basic services drive innovations and productivity gains and improve competitiveness, **emissions program drew technologies** - emissions program beginning in 2014 all california smog stations will be required to stop using the existing bar 97 equipment for smog testing and replace it with the new bar ois system for all 2000 and newer vehicles, **contract vehicles u s government contract vehicles** - artel provides a full range of network integration solutions under multiple contract vehicles with a proven reputation for delivering secure reliable services to our government customers, **autobahn world s leading vehicle sales platform** - the automotive industry is in the beginning of the greatest transformation it has ever experienced new business models changing industry regulations and the explosion of digital technologies and cloud based solutions as well as the rise of electric vehicles are disrupting the automotive landscape, **about autonomous vehicle innovation network avin** - avin s four distinct programs focus on supporting the development and demonstration of c av technologies including infrastructure related to commercially ready technologies for application in mass light vehicles e g cars trucks and vans heavy duty vehicles including commercial vehicles trucks buses recreational vehicles rvs and others used for goods movement transportation, **wyoming dot connected vehicle pilot** - sponsored by the usdot intelligent transportation systems joint program office the connected vehicle pilot deployment program is a national effort to deploy test and operationalize cutting edge mobile and roadside technologies and enable multiple connected vehicle applications, **technologies an open access journal from mdpi** - technologies an international peer reviewed open access journal aging in place can reduce the progress of dementia syndrome and improve the quality of life of the sufferers and their families, **Is technologies llc trusted experience practical** - Is technologies is a proven provider of engineering programmatic and technical services to both the federal government and private industry, **self driving vehicles in logistics dhl global** - self driving vehicles in logistics a dhl perspective on implications and use cases for the logistics industry 2014 powered by dhl trend research, **ict 2016 23rd international conference on telecommunications** - held in thessaloniki may 16 18 ict 2016 introduced 154 scientific papers peer reviewed written by 502 authors representing 43 countries and 123 institutions and enterprises the technical program comprised 30 technical sessions 6 special sessions among them accompanied by 2 workshops and 4 demos 3 keynote speeches and 4 tutorials by top academics and professionals completed this flagship, **valley industrial communications inc redding ca** - valley industrial communications provides high level communication systems to northern california call 530 241 6025 today for more information, **sae international journal of connected and automated vehicles** - sae international journal of connected and automated vehicles furthers the state of the art of engineering research by promoting high quality theoretical and applied investigations in the arena of connected and autonomous vehicles cavs in on road off road and aerial operational environments the, **maryland connected and automated vehicles mva** - maryland connected and automated vehicles cav working group in 2015 maryland transportation secretary pete rahn established the connected and automated vehicles cav working group as the central point of coordination for the development and deployment of emerging cav technologies in maryland the working group handles strategic planning for mdot concerning connected and automated vehicles, **traffic signal communication metro transit** - transit signal priority metro transit buses traveling on central avenue use transit signal priority technology to communicate with traffic signals to stay on schedule
